REFLECTION AND MOTIVATION

Good, better, best.
Never let it rest. 'Til
your good is better
and your better is
best.

ST. JEROME

02

Kohinur Enterprise is the dream initiative of a dynamic individual to serve the construction sector of Bangladesh with quality machinery and spare parts. There was a massive gap in this market before we entered into with the quality service and products. We have worked with the Bangladesh railway successfully for more than ten years and have also completed many challenging projects in different government sectors. Finally, I would like to thank my team for all the hard work.

Kohinur Enterprise started its business as a proprietorship business way back in 2008 with a vision to lead the construction sector in Bangladesh. In this journey, we have worked with various public and private organizations in the past 11 years, and the mission is still on.

Initially, we participated many construction projects of WASA, Dhaka City Corporation, and Roads and Highway department of Bangladesh government. Subsequently, we started working in many technical projects of Bangladesh Railway. Last few years we have been doing more technical projects than ever. We hope to continue this trend in near future.

In summary, the key that has been the major catalyst of our grand success is our ability to provide clients with best quality machinery and equipment that are being sourced from world famous brands in a timely manner. We also

05

VISION

To be the very best in construction and industrial machinery and equipment supply business by satisfying the expectations of the stakeholders and exploring new horizons in this arena.

06

MISSION

- To extend our service to other projects of Bangladesh Government such as elevated expressway and upcoming other developing projects.
- To source the best quality machines and types of equipment to meet our customer's needs and satisfaction.
- To be the country representative of famous global brands and introduce their quality products to our valuable clients.
- To utilize the existing human and other resources in a more efficient way and find out the best in them.
- To create more employment opportunities for our communities and to engage in socially valuable works that helps to improve the living standard.

07

VALUES

- To exercise the practice of giving responsibility with proper authority and discharge that responsibility with accountability.
- To take challenge to cope up with different circumstances and meet the organizational goals by hook or by crook.
- The one and only yardstick will be the performance to evaluate the employees in all circumstances irrespective of gender, religion, cast or other issues.
- To finish the designated jobs in a timely and proper manner.
- To pay high emphasis on prompt customer service and make them happy in all respects.

08

SPECIAL FEATURES

Some core values always have enabled us to achieve some unique features in our commitments that have been our footprints. The unique features that you won't want to miss working with us are as follows:

- As a company, we maintain the highest ethical standards. We always keep in mind that our company exists because of the preference of our clients. Hence, we deliver the committed work in the best quality.
- This is just a blessing for us to have some dynamic leaders in the team lead by the honorable Managing Director. So the clients always get quality tasks from us without any doubt.

08

SPECIAL FEATURES

- Judgment is such a valuable skill that will help you understand the importance of priority and control over the assignments. Excellent judgement always helps us accomplish the tasks at hand in a decent manner upholding the ethical issues.
- It is known to all that the solution to all problems will not be found in books, but you have to make a way out. Thus, innovation in thinking helps to come up with an idea and find a path to solve that strange problem. Our team members have many records of doing so in the past.

PRODUCTS

WE HAVE BEEN
SUPPLYING AND
INSTALLING DIFFERENT
MODELS OF DEUTZ
